Welcome to the Delicious *World of Elif Chocolate*

Tasting a good piece of chocolate is one of life's great pleasures. Founded in 2017, Elif Chocolate offers products with unique flavors that will help you discover your love for chocolate. Elif brand started its activities by producing Chocolate and Wafer products in the first place, with the experience and confidence brought by years of experience. Then, it continues to grow by including biscuit, confectionery, cake and chewing gum products in its product range.

Since its establishment, we have been operating in Konya to produce the best chocolate and snacks in Turkey. We have adopted the principle of offering unique tastes to our consumers with our brand, quality materials and first-class production.

We do not consider the target market, we provide services in all countries of the world by producing different product groups and in line with the demands that may come from our customers.

Our expert and joyful team has decades of experience in the quality chocolate industry. We are proud to deliver our products to more than 50 countries and every continent of the world with our more than 200 kinds of confectionery items like chocolate, soft and hard candy, gummy candy. As Elif Gıda, besides our own brand, we are also marketing and selling the products of companies that produce food.

ELIF QUALITY IS ALWAYS THE SAME

The internationally recognized expertise of our brand, our snacks and chocolates are of inseparable quality. We take care to offer our consumers the same quality in every package. You can visit our production facility at any time and witness our quality.

GIFT

Product

The Most Elegant Form of Gifting

Elif Çikolata's gift collection is designed to complement special moments with a meaningful and refined gesture.

Carefully selected chocolates, elegant packaging, and well-balanced flavor profiles add lasting value to every gift.

The image features a dense, top-down view of various chocolate candies, including round chocolates, squares, and pieces with nuts. In the center, a large, smooth chocolate swirl is prominent. Overlaid on this swirl is a gold-colored, wavy-edged tag with the name 'Elif' written in a black, elegant cursive font.
